

Prof. Guiling “Grace” Wang, Ph.D., CFA, is a Distinguished Professor of Ying Wu College of Computing at the New Jersey Institute of Technology (NJIT). She served as Associate Dean for Research at the Ying Wu College of Computing from 2020 to 2026 and as Associate Dean for Research and External Relations from 2025 to 2026. Beginning in Fall 2026, she will be on sabbatical at Princeton University. She founded the NJIT AI Center for Research and serves as its Founding Director. She also led the development of NJIT's M.S. in Artificial Intelligence and AI Certificate programs, both of which launched in 2023 and were among the first AI programs in New Jersey.

Prof. Wang is an IEEE Fellow, becoming the first female IEEE Fellow at NJIT, and is also a Fellow of the Asia-Pacific Artificial Intelligence Association (AAIA). Her expertise in artificial intelligence has been applied to solving complex challenges in areas including finance and transportation. Her research on deep reinforcement learning for traffic signal cycle optimization received the IEEE Vehicular Technology Society's 2023 Best Paper Award, four years after publication, in recognition of its lasting impact. In 2020, one of her research projects was selected as one of only four awardees from 122 submissions nationwide under the U.S. Department of Transportation's prestigious Exploratory Advanced Research (EAR) Program.

Prof. Wang served as Program Co-Chair of the ACM Conference on AI in Finance (ICAIF) in 2023 and General Co-Chair in 2024. She founded KDD Finance Day and has organized it annually since its inception in 2023. She has also served as Sponsor Chair or Co-Chair for AAAI 2023, AAAI 2024, and ICDM 2025. In addition, she serves as an Associate Editor for several leading journals, including *ACM Computing Surveys*, *IEEE Transactions on Knowledge and Data Engineering*, and *ACM Transactions on Internet Technology*.

Beyond her academic achievements, Prof. Wang has held several governmental advisory roles. Since 2023, she has served as the sole academic representative on the New Jersey Supreme Court Committee on Artificial Intelligence and the Courts. She also served on the New Jersey Governor's AI Task Force Innovation Group from 2024 to 2025, again as the only university representative. Since 2024, she has served on the New Jersey Supreme Court Advisory Committee on Access and Fairness. In addition, she serves as a Subject Matter Expert in Artificial Intelligence for the U.S. Department of Homeland Security's SAGE program.
